PROFESSIONAL PROFILE

High-agency business operator, researcher, and builder with experience spanning market intelligence, startup analysis, event operations, and AI-powered product development. Skilled at transforming ambiguity into structured execution plans, conducting independent field research, and rapidly building functional digital products using modern AI development workflows. Strong communicator with a demonstrated ability to synthesize complex business models and present insights clearly to stakeholders.

EDUCATION

T A Pai Management Institute (TAPMI), Bengaluru

Bachelor of Business Administration (Honours) | Expected Graduation: 2029

CORE CAPABILITIES

- Business Research & Intelligence
- Competitive Mapping & Market Analysis
- Startup & Venture Research
- Event Operations & Stakeholder Management
- AI-Assisted Product Development
- Prompt Engineering & Rapid Prototyping
- GitHub & Deployment Workflows
- Presentation Design & Public Speaking

SELECTED PROJECTS

Mitti & Hootum to Hashtag | Full-Stack Product Lead & Builder

Designed, built, and shipped two functional web applications using AI-assisted engineering workflows. Managed deployment, repository architecture, version control, and production optimization.

Supermarkets vs Local Retail | Primary Field Researcher

Conducted independent field research on purchasing behavior, merchant economics, and consumer loyalty. Interviewed local vendors and synthesized findings into a data-driven consumer behavior analysis.

CRED & Slice Strategy Breakdowns | Independent Venture Analyst

Analyzed fintech business models, regulatory dynamics, founder branding strategies, and platform moats. Developed strategic case studies including Starbucks' \$1.6B stored-value ecosystem.

LEADERSHIP EXPERIENCE

Student Council | Vice Captain & Lead Coordinator

Led student governance initiatives, coordinated cross-functional teams, and managed execution of large-scale institutional events from planning through delivery.
